

MAGIC 2012

April 22 - 26 Kansas City, MO
Westin Crown Center

INNOVATION

As the premier conference in the region, MAGIC promotes the advancement of GIS and geospatial technologies by focusing on today's key issues and challenges.

KNOWLEDGE

MAGIC attracts top experts who will provide you with the most advanced tools and solutions in the industry to arm you with the knowledge necessary to succeed.

COMMUNICATION

MAGIC encourages open dialogue in an environment where you are able to share your experiences, learn from the successes and challenges of your peers, and take home solutions that you can start using today.

SHARING

MAGIC facilitates the exchange of experiences, data, and projects across all levels of government and the private sector.

CONNECTIONS

Form new friendships and partnerships with MAGIC's cutting edge Exhibit Hall and social events, which are sure to provide you with an experience that you will remember for years to come.

SAVE THE DATE. MAP YOUR COURSE.
